

NEXT FRAME™ Equipment Rack

Patent-Pending

HUBBELL

Hubbell Premise Wiring

Racks provide an efficient method of providing structure for a variety of cross connect applications. When used in conjunction with our NEXTFRAME family of cable management accessories, Hubbell Premise Wiring's voice/data racks are the answer to evolving requirements for handling, routing, and organizing cable and optical fiber. Use in the typical cross connect/data center to house 19" rack mount patch panels, cable organizers, hubs, routers, and other network equipment.

The new NEXTFRAME System of Horizontal and Vertical Cable Management products delivers tremendous value by reducing installation time and maximizing reliability.

SPECIFICATIONS

- Material: Extruded aluminum
- Finish: Durable black powder coat or mill finish
- Packaged to meet BellCORE GR-63 transportation requirements
- UL Listed File #E154937

FEATURES/BENEFITS

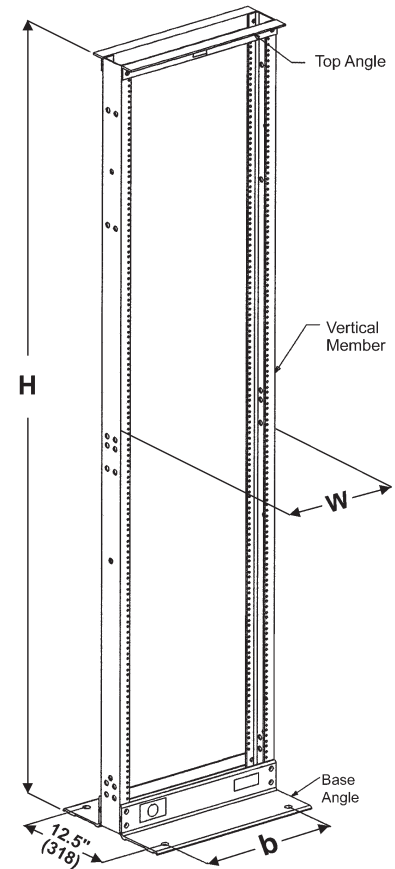

■ Two top angles	➤ Provides stability; excellent for Ladder Rack mounting
■ Lightweight aluminum construction (ships unassembled)	➤ Easy to handle during installation
■ Universal side hole pattern	➤ Mates to a number of other manufacturer's racks
■ Universal mounting hole pattern - front and rear	➤ 100% EIA-310 compliant - Accepts all standard equipment and accessories
■ Mounting holes paint-free	➤ Equipment assembles quickly and easily
■ Pre-threaded holes and self-squaring design	➤ Every rack assembles quickly
■ Includes 20 mounting screws	➤ Convenient item simplifies ordering and assembly
■ Equipment mounting screws with tapered tip	➤ Speeds equipment installation
■ Rugged construction	➤ Wide base allows for standard installation
■ Accepts NEXTFRAME Vertical Organizers	➤ Hubbell offers a superior system of horizontal and vertical cable management components and accessories
■ .200" thick web	➤ Allows maximum torque on equipment mounting screws

DELIVERY

NEXTFRAME Vertical Cable Management Rack - 19" rack shipped unassembled. Provides an efficient method of mounting and securing a variety of data equipment. Features an extra-deep base to prevent tipping, and allows for free-standing applications.
